Nissan Skyline GTR Wiring

Pin	Wire Colour	Functionality
1	Red	+12v Ignition
2	Black	Ground
3	Red	Boost sensor red wire
4	White	Boost sensor white wire
5	Black	Boost sensor black wire
6	Red	Oil pressure sensor red wire
7	Black/Green	Oil pressure sensor green wire
8	Black	Oil pressure sensor black wire
9	Black/Yellow	AFR controller signal 0-5v analogue output wire
10	Green	Throttle Position Sensor output from the vehicle
11	Black/Brown	RPM signal from the vehicle
12	Orange	Oil temperature sensor red wire
13	Grey	Oil temperature sensor black wire
14	Orange	Water temperature sensor red wire
15	Purple	Water temperature sensor black wire
16	Black/Red	Voltage POSITIVE measurement point from the vehicle
17	Black/Blue	Voltage NEGATIVE measurement point from the vehicle
18		4 wire ribbon cable to the joystick
19		
20		
21		
22	Pink	Vehicle headlight on/off detection. +12v from headlight switch
23	Blue	LCD backlight (single blue wire from the LCD screen)
24	Black/Grey	NOT USED
